6th Creativity Award

Winning Song "Sí ndôn"

We are happy to present the 6th Creativity Award for the song

"Sí ndôn". Six artists from Cameroon, Switzerland and Germany/Senegal have collaborated in a vocal and instrumental virtuoso manner.

"Sí ndôn" means "The Planet" in the Ewondo language from Cameroon. The song is a conversation between God and human being about how they feel to live on the planet, and in return they give thanks to God for creating the world and all its precious wonders.

We warmly congratulate the artists and award 5,000 US dollars for the team.

Jury Statement

The dialogue between God and the human being is passionate and exciting. The divine, omnipresent power that protects our planet is honoured with distinctive gospel elements, combined with Rock and Pop: "What would life on Earth look like without you Lord?" The rhythm is very moving and invites you to dance. The saxophone and trumpet tones run like fanfares through the music piece. In the middle part a powerful guitar is convincing.
